

WEATHER FORECAST.
Fair tonight and warmer; Thursday probably rain and colder.

VOLUME 94—NUMBER 20.

TUG FOUNDERS AND PART OF CREW DROWN

Naval Boat Cherokee Lost
22 Miles South of the
Delaware Coast

WENT DOWN DURING THE
HEAVY GALE YESTERDAY

Survivors and Dead Picked
Up By the Passing
Steamers

(Associated Press Telegram)
Washington, Feb. 27.—Thirty officers and enlisted men of the naval tug Cherokee are believed to have been lost when the vessel foundered yesterday morning in a fierce gale off Fenwick Island light ship, 22 miles from the Delaware capes. The survivors who got away on the first life raft were safely landed; four other men got away on another raft but two were washed overboard and drowned and the other two died probably of exposure. The four bodies were taken into Philadelphia.

The Cherokee formerly was a tug of the Luckenbach steamship line and not long ago was requisitioned by the government.

The navy department issued this statement:
One report to the navy department says that 10 survivors already have been landed at some point on the coast. Normally, the Cherokee carried about 40 men. The tug is supposed to have foundered in the heavy gale of yesterday. The navy department made this announcement.

"The navy department is advised that the U. S. S. Cherokee, a naval tug founded yesterday morning off the Atlantic coast. Of the 40 aboard, five officers and 25 enlisted men, 10 had been landed at last accounts, these having been taken to Philadelphia. Four dead were picked up by steamships.

"The 10 known survivors got away in the first life raft. Four got away on the second life raft, but two more were washed overboard and the other two were dead when picked up by a British steamer."

"Later the navy department was advised that incoming ships were carrying four bodies to Philadelphia, and the 10 survivors previously referred to were the only ones known out of the complement of five officers and 25 enlisted men.

Following are the names of ten known survivors landed at Philadelphia:
Boatswain E. M. Senott, U. S. N. R. F. Boston; L. P. Ackerman, seaman; H. P. Foster, fireman; E. J. Hall, seaman; C. E. Barker, chief machinist mate; R. A. Roock, fireman; P. H. Warmack, fireman; A. A. Wallin, oiler; E. L. Gudget, fireman, and B. F. Brumfield, radio electrician.

DIED AFTER RESCUE

(Associated Press Telegram)
New York, Feb. 27.—Two of the eleven members of the Cherokee's crew died soon after being taken aboard a British tank steamer which responded to the sinking ship's S. O. S. call, according to officers of an American steamship, which arrived here today.

These officers said they picked up Cherokee's distress signal early yesterday and headed toward northeast and lightship off the Delaware capes where they sighted the British tanker. Officers aboard the British vessel signalled that they had picked up eleven men, a part of the Cherokee's crew whom they had found on a raft an hour previously.

HAS SURVIVORS ABOARD.

(Associated Press Telegram)
Philadelphia, Feb. 27.—A British steamship anchored in the Delaware off the League Island navy yard, this morning. The state quarantine station reported over the telephone that the ship had signalled as she passed up that she had on board 10 survivors and the bodies of 10 of the crew of the Cherokee.

LANCASTER RESIDENT POISONS GRANDSON AND THEN ENDS OWN LIFE

(Associated Press Telegram)
Lancaster, O., Feb. 27.—Charles McNaughten, a rubber worker, 53 years old, poisoned his grandson, Lawrence McNaughten, 8, who made his home with his grandparents, and then drank enough poison to end his own life last night.

Both were found dead in bed by Mrs. McNaughten when she returned home from a Red Cross meeting at 10 o'clock. McNaughten left a note exonerating his wife from all blame and asked the coroner to take charge of the bodies. The cause for his act is not known.

CALL OUT GUN SQUAD

(Associated Press Telegram)
Newburgh, N. Y., Feb. 27.—An attempt to blow up machinery in the plant of the Newburgh Shipyard company here today was frustrated but only after a guard had picked up a bomb and hurled it out of danger. It exploded and did some damage, but not enough to delay work at the plant.

ENGAGEMENT OFF, REASON'S MYSTERY

Lady Violet de Trafford.
London's younger set has just been left to wonder why the engagement of Lady de Trafford to Lord Burghersh, heir of the Earl of Westmoreland, has been broken off. She doesn't explain.

ARE ON LOOKOUT FOR GERMAN PROPAGANDA AT CAMP SHERMAN

(Associated Press Telegram)
Camp Sherman, Chillicothe, O., Feb. 27.—Military authorities here are on the lookout for German propaganda being distributed among the select of the national army by agents of the Kaiser. A number of pamphlets designed to arouse sympathy for the central powers and to create discontent among the select, especially those of foreign birth, are being watched for, officers say. It was stated today at division headquarters that a small book called "The Book of Truth and Facts" written by one Fritz von Franzing is being placed in the hands of select at some of the camps. Officers were warned to guard against its appearance here.

Similar publications, known to be from German sources, and other propaganda from the organization back of the pacifists and conscientious objectors are also being guarded against. Company officers of all organizations have been instructed to investigate the reading rooms within the limit of their commands to see that such publications are eliminated. Any found will be turned over to the military intelligence officer here to be investigated.

Seventy-five officers and non-commissioned officers of the 320th, 331st and 332nd infantry and the 317th engineers today completed a course in grenade work under Lieutenant Marquet, of the French military mission. About one-fourth of this class chosen from among those who did the best work will be given an advanced course at a later date. Another class composed of about the same number of officers from the 320th, 330th, 331st and 332nd infantry, completed a course in bombing under Lieutenant Marquet. About one-fourth of these officers and non-commissioned officers will get to take an advanced course soon.

Twelve candidates in the officers training school have been chosen to take a course of instruction in the Lewis machine gun. Upon the completion of the course they will be assigned to act as instructors for their respective platoons. The men chosen for the work are:

G. F. McKay, of Cleveland; Felix F. Martia, Cleveland; D. J. Lynn, of Youngstown; C. B. Schoenfeld, Youngstown; R. W. Wilmoth, Elkins, W. Va.; J. T. Burns, East Liverpool, all of the First infantry company. The following candidates are from the second company: W. S. Smith, Springfield; R. H. Israel, Oxford; L. L. Cohen, Cleveland; H. H. Ruggles, Middletown; H. Greenburg, Cincinnati; and J. H. Mason, Marengo.

Candidates in the officers training school will be given two weeks in the trenches beginning March 25, according to plans announced today. Following that, the candidates in the two infantry companies will have a week on the artillery range. The school is scheduled to close April 13. A mine is to be built in the trench area which will later be blown up by a high explosive. The shell crater resulting will be occupied and fortified by the candidates in the field maneuvers which are scheduled when they are sent to the trench. Night operations will be an important part of the work.

Entire reconstruction of the system of trenches dug laboriously by the select in the ground, it was stated today. Many of the trenches have fallen in while the sides of others have given way under the pressure of the elements during the past two months. The camp system of trenches is about five miles long.

100 TRAMPLED TO DEATH AT RACES

(Associated Press Telegram)
London, Feb. 27.—In the collapse of the Chinese public stands at the Hong Kong jockey club races Tuesday, 100 women and children were trampled to death, according to a Reuters dispatch from Hong Kong. Fire broke out and several hundred others were burned to death.

PETROGRAD MAY BE SAVED FROM THE INVADERS

Bolshevik Government to
Retire to Moscow if Ger-
mans Take Capital

BOMBARDMENTS INCREASE ON
THE ENTIRE WESTERN FRONT

Three Americans Killed By
Gas—Artillery Shells
Enemy

(Compiled from A. P. Dispatches.)
Although Chancellor von Hertling has declared German intentions in the east were not aggression and aggrandizement, German military authorities have declined to grant an armistice on the Russian front in view of the Bolshevik offer to accept peace and the German troops continue their onward march. The Bolsheviks are now bending every effort to save the revolution and Petrograd from the hands of the invaders.

It is rumored that the Germans have reached Luga, midway between Pskov and Petrograd. This is unconfirmed as it is a report that the enemy has advanced to a point half way between Luga and Pskov. Meanwhile, the street fighting in Pskov goes on, the city changing hands alternately.

Workmen and troops from Petrograd and troops from Moscow are being sent to check or stop the advance on Petrograd. Women and men are busily building trenches and defensive positions around Petrograd. The Bolshevik government, it is declared, will retire to Moscow if the Germans take the capital. Disagreement in the council of workmen's and soldiers delegates is reported and it is added that Foreign Minister Trotsky will quit the government.

A provisional government has been formed in Estonia with headquarters at Reval and the independence of Estonia has been proclaimed. Chancellor von Hertling said that Germany would give self government to Courland and Lithuania but it is reported from Switzerland that a Saxon prince is to be made king of Lithuania which will be united to Saxony.

Artillery bombardments on the western front have increased in intensity, especially in the Ypres sector, along the Chemin des Dames and on both banks of the Meuse near Verdun. On the American sector northwest of Toul the Germans have attempted unsuccessfully to wipe out the Americans with flaming gas and gas shells. Three American soldiers were killed in two such attacks and nine suffered seriously from the effects of the gas. The American artillery is shelling the enemy positions heavily.

No official recognition has yet (Continued on Page 2, Col. 1.)

DECIDE TO PAROLE WOMAN WHO PLACED POISON IN MILK

(Associated Press Telegram)
Cleveland, Feb. 27.—Mrs. Elsie Bass, recently convicted of manslaughter and given an indeterminate sentence in the reformatory, was to be released from the county jail on parole today. Judge Vickery, of criminal court, before whom the woman was tried for first degree murder, announced that he had decided to parole her.

Mrs. Bass confessed to placing poison in a bottle of milk which resulted in the death of a 9-year-old neighbor boy, John Perko.

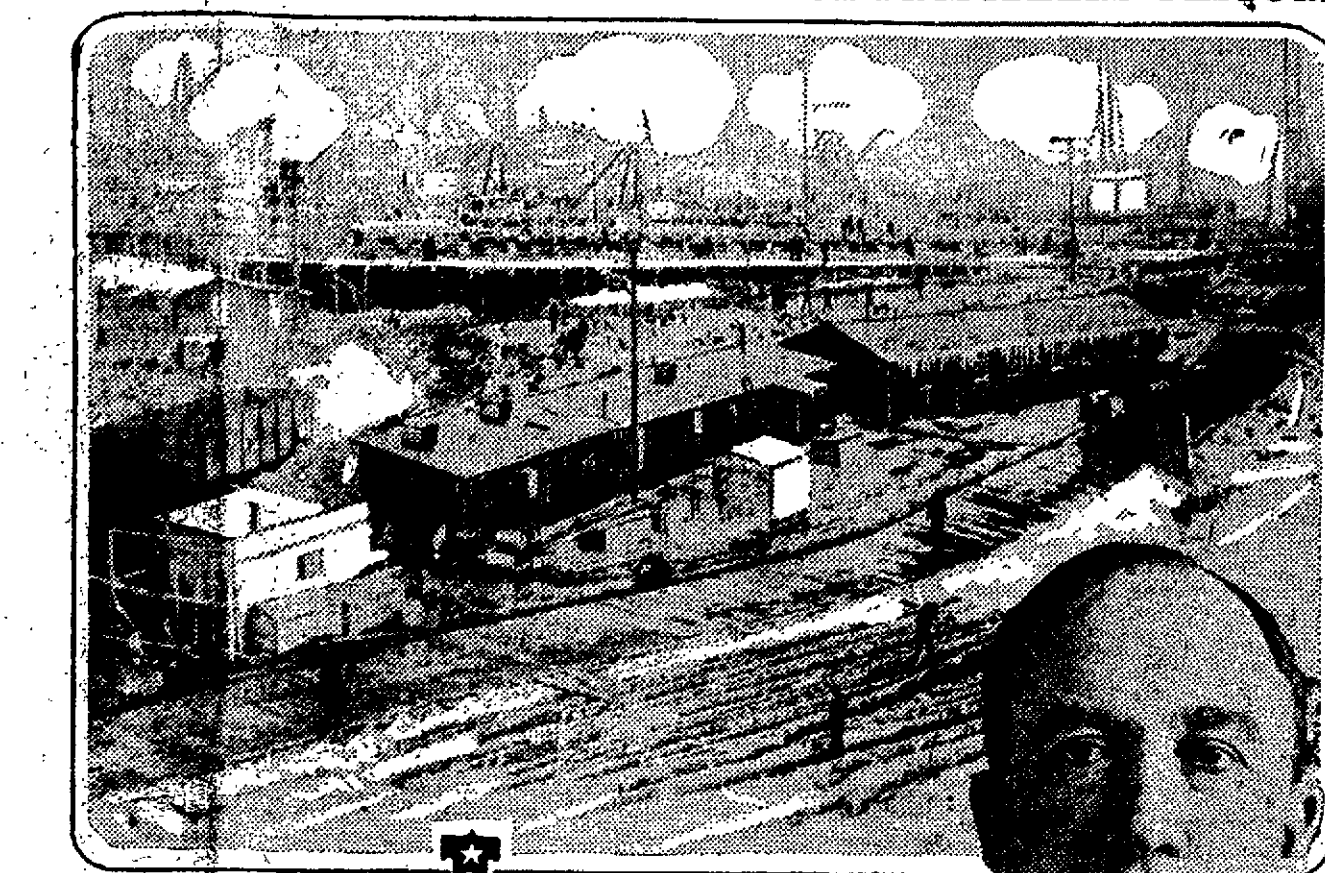

BLAZE THREATENED FACTORY DISTRICT

(Associated Press Telegram)
Rochester, N. Y., Feb. 27.—A fire that threatened Rochester's factory district in the Mill street section today was confined to the plant of the R. Whalen & Co., tobacco manufacturers, a five-story brick building, where it started, after the building had been partly destroyed. There were several miraculous escapes of employees, and several were injured. The loss is estimated at \$120,000.

EARTHQUAKE CAUSED DEATH OF 300 PERSONS

(Associated Press Telegram)
Changhai, Tuesday, Feb. 26.—The earthquake at Swatow caused the death of 300 persons. More than 200 persons are being treated in hospitals there. Scarcely a house there has not been damaged.
Principal Wallace, of the Anglo-Chinese college at Swatow, in a dispatch to a Hong Kong newspaper, says that first accounts of the disaster were exaggerated.
There have been various reports of the loss of life due to the earthquake at Swatow. The number of dead has ranged from 100 to 10,000, while the injured have been placed at 2000.

SENATORS' PROBE WILL TELL WHETHER THIS IS WONDER SHIPYARD OF WORLD OR PROFITEERS' PASTURE

General view of Hog Island shipyard and portrait of William L. Hutchison, who recently called off the shipworkers' strike.

Hog Island shipyard, for months in the public eye as a marvel of engineering speed and skill, suddenly becomes prominent as the alleged pastureland of profiteers. A senatorial investigation is under way to determine the truth or falsity of charges that the government was cheated out of millions on the building contracts.

William L. Hutchison, president of the United Brotherhood of Carpenters and Joiners, called off the strike and sent the shipbuilders back to work in all eastern yards after he had been rebuked by the president.

FOREIGN COMMENT ON VON HERTLING SPEECH BEFORE GERMAN REICHSTAG

(Associated Press Telegram)
London, Feb. 27.—As far as the British public is concerned the mild words of Count von Hertling concerning Germany's pacific intentions and his partial acceptance of President Wilson's basis for lasting world peace fall upon almost deaf ears. A few weeks ago their reception would have been different but German speech is judged here by German acts.

All details of the new war against helpless Russia rob German statements of their stock in trade—the plea that Germany is waging a war of self defense.

The British press is virtually unanimous in the belief that the whole eastern situation has cleverly arranged and plotted with a view to bringing eastern and central Europe under German domination, and for the vital immediate purpose of getting food from the Ukraine.

The evening newspapers see little hope for peace in the speech of Count von Hertling, the imperial German chancellor. "With what face, one wonders, can Count Hertling, who is old and religious, get up in the reichstag and declare that his heart bleeds for humanity and profess his sympathy with President Wilson's appeal for justice, for peace and respect for national rights at the very time when he is publicly engaged in one of the most cynical and calous transactions known to history," says the West Minister Gazette.

"Von Hertling's present duty is to supply the camouflage behind which the real sovereign power of Germany, the great general staff, carries on its operations."

"It is Von Hertling's business to entangle some or all of the allies in negotiations, as Von Kuehlmann entangled the deluded Russians and then Von Hindenburg the real sovereign power will settle the terms and policy on the admirable principles of Brest-Litovsk."

HOSPITAL SHIP IS SUNK BY GERMANS

(Associated Press Telegram)
London, Feb. 27.—The British hospital ship, Glengarry, was sunk yesterday in the British channel, it is announced officially. There were no patients on board. Survivors were landed by an American torpedo boat. Eight boats are still adrift.

The Glengarry, 6807 tons gross, and 440 feet long, was built at Belfast in 1906. She was owned in Southampton.

The Bristol channel is an arm of the Atlantic, extending into the southwestern part of Great Britain, between England and Wales.

According to the Exchange Telegraph company 164 persons are missing from the Glengarry.

LAND SURVIVORS IN WALES.

(Associated Press Telegram)
Swansea, Wales, Feb. 27.—Thirty-four survivors of the Glengarry Castle have been landed here. The number of persons on board is said to have been 200.

CLEVELAND JEWS TO CELEBRATE VICTORY

(Associated Press Telegram)
Cleveland, Feb. 27.—The Jewish population of Cleveland will join tonight in a celebration of the restoration of Palestine. A banquet at 8 o'clock will be followed by a mass meeting at Grays armory. Governor Cox is expected to speak at the mass meeting. Myron T. Herrick, former ambassador to France; Mayor Davis, Rabbi A. H. Silver, and others will also speak. Many prominent Jews from other cities will be in attendance.

SEN. LODGE CLAIMS GOVERNMENT PRICE FIXING A FAILURE

(Associated Press Telegram)
Washington, Feb. 27.—Government price-fixing as a method of preventing profiteering has proved a failure, Senator Lodge of Massachusetts, declared today in giving the senate the conclusions he had drawn from the recent investigations of the coal and sugar shortages. "In the case of coal, Senator Lodge said, price-fixing had only served to curtail production while the food administration's price-plan for sugar had kept western beet sugar from the eastern states, and in the meantime, retailers of coal and sugar had profiteered."

"To prevent profiteering by a few," the Massachusetts senator explained, "the fundamental error of the administration was that a policy for all of fixing prices—declared a failure in both Germany and France—was adopted, instead of one of stimulating and increasing production."

Blame for the coal shortage Senator Lodge laid to the fuel administration's price-fixing plan together with railroad difficulties and the closing order he described as "a complete confession of impotence and failure." He denounced the fuel administration as an "unnecessary agency," which was "composed largely of amateurs."

The senator dealt in a milder manner with the food administration, and although asserting the fixing of the price of sugar was a "mistaken policy," and the sugar famine largely artificial, he added:

"In justice to Mr. Hoover he made every effort to get rail dispositive distribution and get Java sugar. How much he was thwarted by the railroad situation and the tangle of priority orders I do not know, but I am certain that if he had been efficiently aided instead of being crossed by other commissions there could have been no sugar famine in the eastern states."

RECOMMENDS GENERAL CLASSIFICATION OF ENTIRE POPULATION

(Associated Press Telegram)
Camp Sheridan, Montgomery, Ala., Feb. 27.—Major General Charles G. Treat will recommend to the war department sweeping legislative amendments governing naturalization and treatment of aliens.

Chief of these, in preparation, is a requirement of fifteen years residence in this country and the privilege of deportation within the first ten years residence, subject to the will for the president, instead of three years as at present.

"The time has come for a thorough housecleaning. All men who are not for us are against us," he says.

The Buckeye division commander recommends also a general classification of the entire population of the United States.

More than a hundred enemy aliens have been discharged from the Buckeye division, it is announced, and a further survey is in progress. Major General Treat today appointed a board to consider the advisability of continuing Camp Sheridan as a permanent camp after the departure of the Buckeye division.

Major General Treat has reported the climate, water and civil co-operation as among the advantages, but has approved for permanency a plateau slightly removed from the present site.

SOLDIERS OF RUSSIA SEEK TO BE TAKEN

Defenders of Petrograd
Claim They Have Had
Enough Fighting

WORKMEN ARE DIFFERENT
AND ENROLL FOR SERVICE

Dispatches State Many Ger-
mans Already In Rus-
sian Capital

(Associated Press Telegram)
London, Feb. 27.—It special dispatches from Petrograd gauge accurately the situation there the Germans are likely to find little difficulty in occupying the city with trained troops. Russian soldiers refuse to fight and say:

"We have had enough of fighting. If the Germans come let them take us."

There is a stiffer attitude among the workmen from whom, if at all, resistance to the Germans must come. Even though for lack of training their resistance should prove of little value they are said to be enrolling with enthusiasm in response to the call of the Bolshevik leaders. The correspondence of the Daily News writing Sunday says:

"Russian troops almost without exception have refused flatly to fight. A division which was supposed to be defending Narva has arrived at Gatchina. Ensign Krylenko protested. They replied they did not intend to fight."

"Immediately the first few German troops appeared the Russian peasant soldiers, who were interested in the land question and cared nothing for the revolution started eastward in an uncontrollable way, threatening to sack all the towns on the way. The Russian army was Germany's strongest weapon. Indriving it toward Petrograd they were driving a herd of stampeding cattle which would trample down everything in its way. The revolutionary workmen could have put up a real fight against the Germans but they could do nothing against the Russian army, which once appeared, before the revolution can begin to create any real military force for itself."

"The workmen of the towns are eager to fight."

Some correspondents describing the bulk of the population as lost in bewilderment and apathy think such resistance as may be offered will amount to little. They say no amount of talk by the Bolshevik leaders will cover the plain facts of the situation.

"All sorts of preparations are in progress," says the correspondent of the Daily Express.

"One cannot help thinking, however, that the state of siege in Petrograd will be merely technical, as Germans, with or without uniforms are already in the capital. A great many Austrians are here."

The Germans in Petrograd already have organized to police the city, the correspondent of the Morning Post, reports.

In dispatches Nikolai Lenin figures as the backbone of resistance to the Germans although originally he was responsible for swaying the executive committee of the soldiers and workmen delegates in the direction of concluding peace on humiliating terms.

M. Tschetverin, who recently was held in prison in England for circulating seditious propaganda and is now commissioner for foreign affairs and M. Zinoviev, a close assistant of Lenin are understood to be the chief members of the new peace delegation. According to a statement made in the reichstag by Baron von Dem Bussche-Haddenhausen, German under secretary for foreign affairs they must sign peace terms within three days of their arrival at Brest-Litovsk and the terms must be ratified within two weeks. German and Austro-Hungarian delegates have arrived at Brest-Litovsk.

URGES CURTAILMENT OF BUILDING OPERATIONS

(Associated Press Telegram)
Washington, Feb. 27.—In a letter to Frank W. Conner, Washington representative of the American Lumberman, Secretary McAdoo, today elaborated on his recent statement urging curtailment of building operations for the duration of the war.

The letter says:
"It is impossible to lay down a hard and fast rule as to what every patriotic citizen should do in order to live up to his duty in this connection. Things that are necessary for the life and health of the people must, of course, be procured. So it is with the building of homes. It is obvious that it is unnecessary for me to elaborate the point that building operations absorb the materials, the class of labor and the kind of money that the government requires most urgently at this time."
"Where it is a question of building a new home simply because it would afford greater comfort, the operation should not be undertaken. Where it is a question of need, there is no doubt that the work should be undertaken. This applies equally to construction work in cities and towns and in farming districts."

PETROGRAD MAY BE SAVED FROM THE INVADERS

(Continued from Page 1)
been taken of Chancellor von Hertling's speech. It is regarded in Washington, London and Paris as a war speech and not a peace statement. The chancellor's purpose, an official of the French foreign office says, was to separate the entente allies, stimulate peace talk and impress Germany and the outside world with the notion that the military caste had lost its power. Belgium, it is declared, hardly will answer the chancellor's peace hint. German submarines have not let up in their campaign against Spanish shipping. The steamer Neguri, of 1,859 tons, is the latest victim. She is the fifth Spaniard to be torpedoed within five weeks.

The aerial activity on the Franco-Belgian front is reaching a state of great intensity, such as usually precedes important offensive movements. The Germans are making note of this in their official reports, telling today, for instance, of great numbers of air duels in which they claim to have brought down 15 entente airplanes. On the ground there is no indication of any change from the conditions prevailing for a number of days past. Raids on a large scale are continuing, and in one case the Germans attempted a real attack. This was upon the new French positions near the Butte du Mesnil, in the Champagne, which American artillery aided in capturing recently. The artillery on the French side broke up this attack before the Germans reached the French lines. Whether the American batteries are still in service there is not brought out by the Paris official statement.

North of the Chemin-des-Dumes, where American troops were recently reported in the lines, two raids in force were attempted by the Germans last night. In neither case did the raiders achieve their object. On the water, the sinking in the Bristol channel of the British hospital ship, Glenart Castle, a 6,000-ton vessel, with 200 persons on board, none of them patients, is reported by London. An American torpedo boat destroyer landed some survivors. Other advices announced the landing of 34 survivors at Swansea, Wales. Berlin today claims that at least 3 vessels were destroyed by the German raider Wolf in the Pacific. Estimated not many more than a dozen ships timates in entente quarters had figured by the Wolf.

CIGAR MAKERS ON STRIKE.
New York, Feb. 27.—Sixteen thousand cigar makers are on strike here to enforce a demand for an increase of \$2 a thousand on cigars, according to statements today by union leaders. The strike will be extended to all factories in New York in which the demands are refused the leaders assert.

DAILY MAIL SERVICE BY AEROPLANE ROUTE

(ASSOCIATED PRESS TELEGRAM)
Washington, Feb. 27.—Airplane mail service between New York and Washington will be in daily operation beginning April 15, the post-office department announced today. Eight machines will be furnished by the war department.

By arrangement between Postmaster General Burleson and Secretary Baker the aerial postal service will be conducted for one year as part of the aviation system of the army. The machines will be piloted by army fliers.

VESSELS DESTROYED BY GERMAN RAIDER

(ASSOCIATED PRESS TELEGRAM)
Berlin, Feb. 27.—The German raider Wolf which has returned to a home port after raiding entente shipping in the Pacific destroyed at least 35 vessels, it was officially announced today. Some of the steamships, it is stated, were loaded with English troops, and the sinkings, therefore, caused a corresponding loss of human life.

GIRLS MUST BE TAKEN TO INDUSTRIAL SCHOOL BY PROBATION OFFICER

Columbus, Feb. 27.—Girls committed to the girls industrial home, Delaware, by the juvenile court, should be taken by the probation officer, and not by the sheriff, so attorney general McGhee held today. Girls so committed do not come under the classification of persons convicted of criminal offenses, and for this reason there is no authority to turn them over to the custody of the sheriff.

CHAMBER OF COMMERCE NEW MANAGER

The following resolutions were passed at the last meeting of the Piqua Rotary club: "Be it resolved that the Piqua Rotary club convey, through its secretary to the Newark Rotary club the keen regret we feel in losing the companionship of Mr. Thomas J. Appleyard, who has been untiring in his activities and support of all movements for the welfare of our city."

"His enthusiasm, optimism and public spirit, together with his sound character have cemented Mr. Appleyard to us in such a way that his leaving Piqua causes sincere regret, not only among Rotarians, but among all the people of the city."

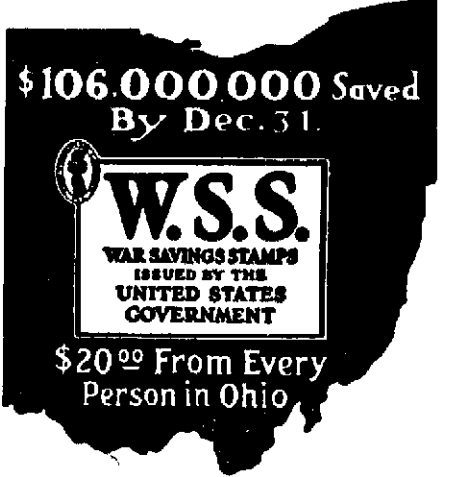

Save Money Every Day--Loan it to Uncle Sam by Buying 4% Non Taxable War Saving Stamps

The only way for the United States quickly to win the war is for the 100,000,000 people behind the fighters to loan their surplus earnings to the Government. Germany has exhausted her liquid capital. She has commandeered her labor and every man not at the front is told how much he must GIVE of his labor to the Government without pay. **UNCLE SAM ASKS YOU TO LEND YOUR MONEY. THE GOVERNMENT WILL PAY YOU 4 PER CENT INTEREST.**

The price of War Savings Stamps advances day after tomorrow. So buy before March 1st and save money. One \$5 stamp costs \$4.13; twenty \$5 stamps \$82.60; one hundred \$5 stamps \$413; two hundred stamps \$826, if bought before March 1st. Save money by exchanging your Thrift Stamps for War Savings Stamps tomorrow. All stamps you buy tomorrow advance in value the next day. Two hundred stamps costing \$826 will be worth \$828 on March 1st.

Every Thrift Stamp and every War Savings Stamp that you buy is just like giving Uncle Sam the shrapnel that will change the kaiser's dream of world conquest into a nightmare in which Truth will open the bloodshot, blinded eyes of Autocracy to the hopelessness of a cause born in murderous selfishness. Ten million Americans bought Liberty Bonds and thirty millions are expected to buy War Savings Stamps, which are "Baby Bonds."

Tax listing time approaches. Remember, War Savings Stamps are not taxable. Six hundred and eighty-seven Licking county people, firms or corporations are selling War Savings Stamps. Buy stamps and start saving at once. In so doing you are helping yourself, you are giving nothing, yet you are helping Uncle Sam to win the world war. Every man, woman and child should have a part in this great Thrift campaign. Its success will be a great help to the government in winning the war.

THE LICKING COUNTY WAR SAVINGS COMMITTEE

SEED CORN TESTING STATION IS SECURED FOR LICKING COUNTY

The Licking County Farm Bureau has been working on establishing a seed corn testing station for some time. At first it was decided to conduct it as a private enterprise, charging the cost to the farmers who have corn tested. The county agent applied for a station conducted by the government. Due to that request President W. C. Hall, J. H. Myers of Hebron, director from Union township, and County Agent Mowls were called to Columbus last Thursday to confer with Clark S. Wheeler of the Extension Department. At that conference the Licking County men made it clear that there was need for a government testing station for Licking County.

The request was taken under advisement and Monday evening Raymond Gouch from the University called at Farm Bureau headquarters to make arrangements for establishing the station. The man to do the testing has been secured who will do the testing at the Weiland's green house.

It is expected to have the work begun as soon as possible. It is intended that farmers submit samples from each ear to be tested. The report will be returned from office of Farm Bureau. No charge will be made.

It is hoped that every farmer in Licking county who has not already made an ear test will avail themselves of this opportunity. The plan will be worked out through the director's of the Farm Bureau.

If you do not know the director from your township make inquiry at this office. Details will follow as to method of collecting samples.

The securing of this government testing station was due entirely to the efforts of a strong and active farm bureau. It is desired that every farmer in the county join this organization. There are more good things we can secure but it is necessary to have a strong, active organization to do it. Help by joining the Farm Bureau.

GLOVES, GLOVES AND MORE GLOVES ARE WHAT THE CAMPS ALL DESIRE

A supply of "text-books" at one of the army camps.

The "text-books" shown in the picture are highly valued in all of the army training camps and so far none of the camps have been able to get enough of them. Boxing has been found so excellent a means of developing agility and sharp eyes among the soldiers and has been so successful as a recreation that boxing gloves are never quite in step with the demand. The men are better supplied today than hitherto since the government has been buying more and many benefit fight shows have turned over their proceeds to the camps for the purchase of gloves.

CORPORAL IS SAID TO HAVE STABBED PRIVATE WHO DIED

Hattiesburg, Miss., Feb. 27.—Private Julius Van Camp of Mishawaka, Ind., died at the base hospital Sunday night from a bayonet wound, said to have been inflicted by a corporal because Van Camp refused to do extra duty. Ordered by officers to make the march the corporal prodded Van Camp with his bayonet. The private resented that and turned upon the corporal who is reported to have stabbed him with the bayonet.

MAKES NO DIFFERENCE WITH GERMAN LEADERS

London, Feb. 27.—In a dispatch filed at Petrograd yesterday, a correspondent of the Exchange Telegraph company says that Germans operating in the region of Pskov inquired of the German General Hoffman, whether, in view of Russia's acceptance of the German peace terms, they should continue to advance. General Hoffman, the dispatch says, replied in the affirmative.

ASIATIC EPIGRAMS

- Condemn no one. Regard him who is above thee as thy father; him who is thy equal as thy brother, and him who is below thee as thy son.—Asia Magazine.

SELF DEFENSE Defeat Backache and Kidney Trouble With Anuric

Many Ohio people have suffered from rheumatism and kidney trouble and have found that Anuric was the most successful remedy to overcome that painful and dangerous ailment.

The lucky people are those who have suffered, but who are now well because they heeded nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's called "Anuric." You should promptly heed these warnings, some of which are dizziness, backache, irregularity of the urine or the painful twinges of rheumatism, sciatica or lumbago. To delay may make possible the dangerous forms of kidney disease, such as Bright's disease, diabetes or stone in the bladder.

To overcome these distressing conditions you should take plenty of exercise in the open air, avoid a heavy meat diet, drink freely of water and at each meal take Dr. Pierce's Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm believers of Anuric, as are thousands of your neighbors.

CLEVELAND, Ohio.—"When I commenced to take Anuric about two months ago, I was so crippled with rheumatism that I could not get around. The kidney excretion was high colored and quite painful. The first week I persisted in the treatment, even though I felt a little worse, but I noticed that the water changed at once, and I had sense enough to know that the medicine was working right. Then my entire system seemed to be miraculously relieved of the uric acid. I felt better than for years; the rheumatic condition was almost entirely disappeared and I was able to work same as when I was young. It seems almost beyond belief that so inexpensive a medicine could cure the rheumatic pain that had been tormenting me for more than five years. I will be glad if through this someone will try Anuric and obtain relief."—Mrs. DANIEL FAUGHNAN, 3017 E. 72nd Street.

ALL DEFENDANTS DISCHARGED.

(ASSOCIATED PRESS TELEGRAM)
Indianapolis, Feb. 27.—Former Mayor R. O. Johnson, of Gary, Ind., and six other Lake county Republicans whose trial in the U. S. district court here on charges of election conspiracy was started yesterday, ended suddenly today when all the defendants were ordered discharged by the court.

STRAY NOTES

The exiled czar of Russia is a great whist player. He formerly used more than 1,200 packs of cards a year at \$7 a pack.

Clarence Willard of St. Louis, now at Camp Funston, received by parcel post a letter from his friends which was 300 feet long.

Howard Quincy of Armore, N. Y., caught several perch in the Kensico reservoir and found in the stomach of one two pearls, for which a New York jeweler offered \$140.

A parliamentary committee has found that the production of all of London's electric power in a few central stations would save 6,000,000 tons of coal a year and greatly lessen the smoke evil.

Judge Charles W. Coleman of Goshen, N. Y., who was twenty-one and who has been in continuous service for forty-six years resigned recently.

Geological survey statistics show that 75,167,672 gross tons of iron ore were mined in the United States last year, the greatest amount on record, an increase of more than 10,000,000 tons from the previous year.

The biggest air-raid dug-out in England has just been opened to the public for use during air raids. It will accommodate 20,000 persons. The dug-out is really an unfinished railway tunnel, 100 feet underground, on which work was discontinued at the beginning of the war. It is electric lighted and seats have been provided for 2,000 persons.

IN FIVE MINUTES NO SICK STOMACH INDIGESTION, GAS

"Pape's Diapepsin" is the Quick-est and Surest Stomach Relief.

You don't know what upset your stomach—which portion of the food did the damage—do you? Well don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and cructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened, and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion, if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight, so gently and easily that it is really astonishing. Your stomach will digest your meals if you keep acids neutralized.

BELL-ANS Absolutely Removes Indigestion. Druggists refund money if it fails. 25c

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

DODGE BROTHERS

WINTER CAR

Warmth and protection and comfort are, of course, their chief attributes—but these winter cars are built with an eye to convenience as well.

For instance, the doors are as high as those of a limousine. They open readily from within or without. Their wide swing makes entrance an dexit easy.

Ventilation is provided by means of adjustable windows. There is clear-vision on all sides, for driver and passenger.

It will pay you to visit us and examine this car.

The gasoline consumption is unusually low. The tire mileage is unusually high.

AMUSEMENTS

AUDITORIUM.

Theda Bara Tonight.

The type of woman who composed Russia's famous Legion of Death is being shown at the Auditorium theatre today for the last time, where Theda Bara is portraying the heroine of "The Rose of Blood." This William Fox production, which shows the underplots leading up to the gigantic revolution, is an engrossing interest seldom seen in historical dramas.

Tremendous crowds are flocking to every performance to see this big spectacle, which combines the name of its noted star with a story distinctly worth seeing. Into the eventful life of one heroine, the scenario writer has been able to crowd a host of incidents which, in their total, make up a story of powerful force.

Lizka Tapanka is a girl of the people who attracts a Prince to her feet, and marries him. She carries with her, in her high station, the latent she has always felt toward the ruling class of her country. She is banded with a group of revolutionists, and she has promised to carry out their will insofar as she is able.

The chief of the secret police is first to come under the power of her enmity. Then, one after another, several high government officials, who have exercised tyrannical powers over the populace, are killed. The great moment comes when Lizka is commanded to assassinate her own husband, now Prime Minister.

Waiving between her love for him and her sense of the duty due her people, Lizka finally lets the right con-

quer. She blows up the building which houses her husband and the other members of his cabinet.

Stella Maris.

Playing a dual role, Mary Pickford will be seen in a new Arcturion picture at the Auditorium theatre beginning tomorrow for three days. Miss Pickford plays the title role of "Stella Maris," in a film version of William J. Locke's celebrated novel, and also interprets the part of Unity Blake, an unlovely character who is introduced as an inmate of an orphan asylum. As Stella Maris, a paralytic heiress, surrounded by every luxury wealth can command, and protected from even the slightest knowledge of worldly things, the comparison with Unity Blake presents a startling contrast. Later, when Stella Maris has her health restored and learns of the poverty, misery and crime existing in the world which her imagination had pictured as idyllic life, it proves so strong a shock that her life is threatened.

Through an amazing chain of circumstances the two girls—the Ugly Duckling and the delicate and beautiful Stella Maris—love the same man, and then comes a supreme sacrifice, the giving of Unity Blake's life for the man she loves and for Stella Maris.

The portrait of two characters so vastly different by Mary Pickford will probably stand as a wonderful achievement in screen art. Frances Marion adapted the story to the screen, and Marshall Neilan directed the production. That they have caught the tender pathos of the novelists' work is demonstrated in this, the

latest of charming vehicles for the appearance of the world-famous star.

A two-reel Sunshine Comedy will also be again.

"The Son of a Gun."

The Auditorium tomorrow and Friday offers an extra added attraction to the two-reel William Fox Sunshine comedy, "The Son of a Gun." The comedy is now rated as equal to the best comedies produced and are shown only at this theatre in connection with other high class picture features. This feature is shown together with Mary Pickford in the Arcturion photoplay, "Stella Maris."

"The Spy," the noted author, who was asked recently how he came to write "The Spy," the sensational William Fox production exposing the German secret police. This is Mr. Howard's reply:

"I was standing by the Brandenburg Gate to the Royal Palace, Berlin, in full sight of the Kaiser Franz Josef Platz and the Platz am Zeughaus and Unter den Linden. I saw a man in a dark suit and a high collar, who was looking at the panels of which was a crest that on the left hand stood for the three chambers of the Foreign Office. In the tannery sat the owner of the car, a distinguished Baron whom I had seen often. I gave him a stare, and he turned and looked at me. I knew that it was that sat with him. I knew this man well, also, but I must not mention his name. He will be called the Honorable Mr. Blank.

These were days before the war. Mr. Blank was a multi-millionaire maker of munitions and of unsavory reputation. That I should see him in company with one who went daily to the Wilhelmstrasse to consult with his own, the traitors of other countries—this was a grave matter to every good German.

I hailed a passing motor car and followed the Daimler. It stopped before the Bellevue Strasse, that massive affair of gilt and gold. The Baron remained in the machine. I joined down in the hotel. The Baron returned in a moment with certain leading citizens of great Atlantic seaboard cities.

I rubbed my eyes, then wrote in a small memorandum book the names of the newcomers. It needed no tell how often I followed the big Daimler in the days that came after and of how many American names I jotted down in the book. This book has been invaluable. It is true I tore it to pieces before I dared cross the border. But there was not a single name in it I forgot.

Nor have I neglected to give those names to those to whom they will do the most good.

In Columbus and no doubt large crowds will see it here.

Buffalo Bill's wild riders had nothing on, nor cannot be compared in ferocity or recklessness to the daring horsemanship to play the part of Cosack leaders in the William Fox drama, "The Rose of Blood," now being seen at the Auditorium.

Slim Summerville has been christened Tuesday at the Mack-Sennett Studio. Tuesday is merciless; Slim is merciless; so there you are. Slim by the way, does some of the cleverest work of his career in the Paramount-Sennett Comedy, "It Pays to Exercise," which comes to the Auditorium next Sunday.

Theda Bara's next Fox feature that she will appear in at the Auditorium is "Camille." In this Bara is seen in a new type, that of a "sympathetic vampire."

"Eagle Eye," the famous Sioux Indian chief, last week fell from his horse and broke his left leg, while making a scene for the Fairbanks-Arcturion feature, "Headin' South." The popular star ordered that the Indian be placed under the care of an expert surgeon and provided for until absolutely able to resume work. Later it was reported that the injured man will be crippled permanently, whereupon Fairbanks agreed to pension him.

"Mary's Ankle," an A. H. Woods production, will be seen at the Auditorium in Mr. Woods has a company both in New York and Chicago now playing to turn-away-business.

The Auditorium has "Smilage Books" on sale and if you want to give your boy, or somebody else's boy a treat, buy him a smileage book. They are good at the Auditorium theatre in the country, also the Auditorium.

It is reported that those two famous stars, McIntyre and Heath, will enter the picture game several big film corporations are after them.

Dustin Farnum, clever Fox star, will come to the Auditorium next Monday and Tuesday in "The Spy," thrilling story of Germany and its numerous spies.

Tom Mix, now a full-fledged William Fox star, will always be welcomed at the Auditorium for his Cupid's Round the star and if you want to give your boy, or somebody else's boy a treat, buy him a smileage book. They are good at the Auditorium theatre in the country, also the Auditorium.

One of William Fox's most talented leading actors, last week in a crowded theatre by an admirer who could not check his enthusiasm when he learned the identity of the little film star who was seated next to him. It was no other than little Virginia Lee Corbin, who has been seen here as the star of the Auditorium next Monday and Tuesday in "The Spy," thrilling story of Germany and its numerous spies.

"A Strange Transgressor," is the title of the new play starring Louise Glaum, the celebrated "peacock siren," at the Grand theatre Thursday and Friday. It was directed by Reginald Barker. Louise Glaum, as Lola Montrose, the woman who believes love to be the only bond necessary to join man and woman, is said to present an unforgettable characterization. Through her intense devotion to the laws of convention and scoffs at outward hypocrisy.

ALHAMBRA. Tonight and tomorrow. Four big stars—Carlyle Blackwell, June Elvidge, Evelyn Greeley and Arthur Ashley—are seen in "The Beautiful Mrs. Reynolds," a new World-Picture Brady-Made which has been secured by the Alhambra theatre for showing tonight and tomorrow.

This production deals with the most dramatic and romantic incident in American history—the famous feud between Aaron Burr, Senator from New York, and presidential candidate, and Alexander Hamilton, Secretary of the United States Treasury and one of the most brilliant statesmen of early American life. It is all historically true and that is why the great romantic, intensely dramatic and also entertaining and "snappy" production, is not only a treat to the eye, but a treat to the heart.

Carlyle Blackwell appears in the role of Mrs. Reynolds, who, no matter what else may be said about her, loved Hamilton deeply and nobly. Evelyn Greeley is cast in the role of Margaret Montcrieff, the unwitting and innocent

cause of it all, and Arthur Ashley is seen in the character of Aaron Burr.

Wonderful Program. The Alhambra theatre has another wonderful program for its patrons today and tomorrow. Carlyle Blackwell, June Elvidge, Arthur Ashley and Evelyn Greeley in "The Beautiful Mrs. Reynolds." You can imagine the quality of this picture and William S. Hart in two reels of western life, "The Comeback." Also a one reel comedy, featuring Betty Bronson in "Almost a Bigamist." And music, YES.

Sunday. Not only does Tsuru Aoki, the Japanese actress, who is starring in the "Esanay" feature picture, "The Curse of Iku," drink her tea like a true Japanese, but she has transplanted the custom to nearly all the other actors and actresses of her company. It took them a while to become accustomed to drinking unsweetened tea without even cream, but most of them now declare it is better than the American way.

ORDINANCE NO. 2790. Granting the right and permission to The Holophane Glass Company to construct and maintain a sidewalk across Oakwood Avenue and a side track across Oakwood Avenue, in the City of Newark, said sidewalk to cross Oakwood Avenue on a curve on a proposed street and easement, Ordinance No. 2780 passed January 7th, 1918.

Section 1. That permission is hereby granted to The Holophane Glass Company to construct and maintain a sidewalk across Oakwood Avenue and a side track across Oakwood Avenue, in the City of Newark, said sidewalk to cross Oakwood Avenue on a curve on a proposed street and easement, Ordinance No. 2780 passed January 7th, 1918.

Section 2. That The Holophane Glass Company shall pay for the legal advertising of this ordinance.

Section 3. That Ordinance No. 2780 passed January 7th, 1918, be and the same is hereby repealed.

Section 4. This ordinance shall take effect and be in force from and after the earliest period allowed by law.

Attest: J. S. WOODWARD, Clerk of Council.

Approved by the Mayor this 18th day of February, 1918.

Attest: H. A. ATHERTON, Mayor.

RESOLUTION. Authorizing the City Solicitor to arrange settlement of the case of the City of Newark, Ohio, against William Weatley and Mary Weatley.

Be it resolved by the Council of the City of Newark, State of Ohio: That the City Solicitor be and he is hereby authorized to confess judgment in the above entitled case for the appropriation of certain property for the sum of Eight Hundred Dollars (\$800.00) and cost.

Section 2. The resolution shall take effect and be in force from and after its adoption.

Attest: J. S. WOODWARD, Clerk of Council.

Approved by the Mayor this 18th day of February, 1918.

Attest: H. A. ATHERTON, Mayor.

WEST SIDE MEETINGS ARE WELL ATTENDED. The meetings at the West Side Church, of Christ were well attended last night, and much interest manifested in the singing of "Christ's Great Sacrifice" was convincing and showed that the sacrifice of bulls and lambs could not take away sin, but that God gave His beloved Son, Christ Jesus, on the altar of sacrifice, that we by His shed blood might be made free from sin and death eternal life.

At the close of the service one young woman came into the church by state, having been a member of the Church of Christ at New York.

A delegation from the "Old Stone Church," southeast of the city, will attend the meeting tonight and furnish the music. Services promptly at 7:15 o'clock.

25 Years Ago. (From Advocate, Feb. 27, 1892.) A social will be given by the ladies of the Women's Christian Temperance Union, Church street, Tuesday evening.

Buy your new spring hat of Harry P. Scott and will be ready to occupy as soon as the furniture arrives.

Closure & Schaeffer will have a street hat opening Friday and Saturday, for Philip, Atchison and Knickerbocker.

Ochley Cunningham has resigned his position at the Warden Hotel and has accepted one with the Bolton house.

Born to Mr. and Mrs. Van Chaffin of Union street, a son, William H. Hallinger, a son of this city have embarked in business on Franklin street to do plumbing, roofing and tinning.

Mrs. S. L. Africa of Granville street entertained Thursday in honor of Miss Jennie Kennon.

NOTICE. State of Ohio, Licking County. Court of Common Pleas. Frank Knickerbocker, Plaintiff.

Neille Knickerbocker, Defendant.

The defendant, whose place of residence is unknown to plaintiff, will take notice that the plaintiff has filed his petition in the common pleas court of Licking county, Ohio, praying to be divorced from the defendant, on the grounds of gross neglect of duty and willful absence. Said petition will be heard after three weeks from the 22d day of January, 1918.

NOTHING LIKE PHOSPHATE

TO INCREASE STRENGTH, VIGOR AND NERVE FORCE

ORDINARY BITRO-PHOSPHATE WILL DOUBLE THE STRENGTH OF WEAK, DELICATE NERVOUS PEOPLE IN TWO WEEKS' TIME IN MANY INSTANCES.

Weak nerves quickly reduce the strong and robust to an extremely pitiable condition, and rob men and women of all the joys of life. Slowly and stealthily the health is destroyed, the poor sufferer only realizing the magnitude of his ailment when faulty memory, sleeplessness, indecision, lack of energy or other unmistakable symptoms indicate weak nerves. Then is a serious and dangerous mistake to resort to the use of so-called tonics, alcoholic or drug stimulants. Weak and exhausted nerves need food and nourishment—not stimulants that lash them into temporary activity. The food and nourishment advised by present day physicians is just one 5-grain tablet of pure bitro-phosphate taken during or immediately after each meal. Such advice, but its soundness has been proved over and over again. Moreover the remedy is within the reach of every sufferer from weak nerves, as a large package of bitro-phosphate tablets sufficient for two weeks' treatment can be obtained from Evans, or any first class druggist at reasonable cost and every package is accompanied by a binding guarantee of satisfaction or money back.

Advt.-2-14-19-27

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Farnum's Ear Drops, and add to it 1/2 pint of hot water and just a little sugar, as directed in each package. Take 1 tablespoonful four times a day.

This will bring quick relief from the distressing head noises. Clogged nostrils should open. Breathing become easy and the mucous stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial. T. J. Evans. Advertisement.

GUARANTEED CIRCULATION.
The circulation of The Newark Advocate has been audited by the Audit Bureau of Circulations, the recognized authority on expert circulation examination.

TWO TYPES OF MERCHANTS.

In every community you will find some merchants who would never consider any kind of an advertising proposition. It is a matter of temperament and grows out of a man's personal characteristics, not from business circumstances or local conditions.

It is the nature of some men to take what comes naturally and let the rest go. They are built on the "Let well enough alone" policy. They run along in the same rut year after year. These people rarely advertise. It is not the desire of the Advocate to say a word against them. Many of them are very honorable, faithful and reliable men. But they lack the spirit of enterprise and hustle, without which no business can permanently hold its grip in these times.

Other men are always reaching out for bigger and better things. They are not satisfied with holding the same trade year after year. They are always reaching out for more. The newspaper does not have to use any long winded arguments to convince such men about advertising. They believe in it already. The only thing necessary is for the solicitor to convince them that his particular proposition is sound and worth the money he asks.

The advertising merchant is the best one for the public to patronize, because of the temper and characteristics revealed by the fact that he does advertise. This shows that he is not satisfied with things as they always were. The same spirit of enterprise that urges him to seek new trade by advertising, leads him to seek better bargains, higher values, and more satisfactory service.

So if our readers wish to know what merchants can fairly be expected to give them the most for their money, in quality, style, service and price, they can do no better than to make up a list of the merchants that advertise in the Advocate.

EXCLUSIVENESS.

Americanization work among aliens has its humor. An evening school teacher in one of our cities having a large foreign population, told this amusing incident the other day:

The school authorities felt that many of the foreigners were making no effort to learn English. To interest a colony of Swedes and Finns, they established a branch evening school, in a district called Swedeville. The Swedes and Finns came enthusiastically in large numbers.

Then the school board, anxious to extend their work of Americanization still further, hired trucks and transported a lot of Russians, Poles, and Lithuanians from another section of the town to the same school. These also were enthusiastic. But the Swedes and Finns, feeling that the latest accessions were a less

ASTRONOMICAL EVENTS.

Brilliant Arcturus of constellation Bootes conspicuous in the northeast in the evening, moving across the eastern sky, southward. Conjunction of Mars and the Moon, the latter in Aries, or farthest from Earth.

DAILY HISTORY CLASS—Feb. 27.

1700—John Evelyn, famous for his diary, died; born 1620.
1807—Henry Wadsworth Longfellow, American poet, born; died 1882.
1910—Germans captured 1,000 yards of French trenches in a new attack west of Verdun.

1917—British advance was one mile from Bapaume.

ASTRONOMICAL EVENTS.

Brilliant Arcturus of constellation Bootes conspicuous in the northeast in the evening, moving across the eastern sky, southward. Conjunction of Mars and the Moon, the latter in Aries, or farthest from Earth.

ASTRONOMICAL EVENTS.

Brilliant Arcturus of constellation Bootes conspicuous in the northeast in the evening, moving across the eastern sky, southward. Conjunction of Mars and the Moon, the latter in Aries, or farthest from Earth.

educated class, were disgruntled and soon dropped out of the school. The school authorities took the position that this is a democratic country and that all elements must learn to mingle with each other.

Many immigrants go home and claim that the United States is ruled by millionaires and does not welcome newcomers. Leon Trotsky, after a few months newspaper writing on the New York East Side, went home and broke up the Russian armies by telling them the United States is an oligarchy, not worthy of being Russia's ally.

But when the alien elements show the same exclusive spirit of which they sometimes complain, there life and civic advance. Every element in our melting pot has something to learn and something to gain from every other element. If we are to use the same ballot box, we will have to attend the same school.

BUILDING AIRPLANES.

Perhaps the biggest mechanical problem of war has been the construction of a great force of aircraft. It was practically new work. We had realized the necessity of warships and had a start on the manufacture of artillery and small arms. But we had only foiled with aircraft, and all in a moment we were called on to build them by the 10,000.

Immediately a vast force of workers who knew nothing about planes had to be assembled and drilled. A lot of new problems arose. A typical one was that of lubricants. Not one of the standard oils in use in our factories would go for the high speed Liberty motor. One single exception was the lubricant derived from castor oil beans. Unfortunately the growing of these beans is discontinued here, owing to a cheaper substitute from India. While the industry is being re-established here, it was necessary to depend on cargoes rushed from India.

The covering for the wings has to be Irish linen, the best fabric in the world, since it is light and strong and will not rip like cotton when pierced by bullets. The supply gave out, but under the direction of the British government, the Irish crop is hoped to be sufficient. The public has already been warned to go slow on purchases of linen, as certain qualities of it are imperatively needed for aircraft.

Every spot of high pressure on the wings has to be reinforced. Then the whole has to be sewed back and forth with three inch needles over the ribs. No one ever estimated the number of stitches needed.

Every operation calls for infinite care and skill. Every sharp line, every superfluous bit of wire or steel must be cut out. They all add to weight and wind resistance. It must be able to stand an air pressure that would wreck the ordinary house.

The people who kick about the boys coming around to sell Thrift Stamps and Liberty bonds were probably the ones that kicked the hardest because the boys used to occupy their time throwing stones through their windows.

Some of our women friends are preparing for the gardening campaign by getting up stylish garden dresses. And their husbands are laying in a stock of cigars to smoke in the shade while bossing the job.

The people who growl the most about having to pay an income tax, would be the same ones who would complain the most if their income was so small that they did not have to make any return.

The Germans don't exactly like to die for the Kaiser, but they would rather do it than have the bother of self-government and managing their own affairs.

There is a tendency on the part of the cats on the back fence to continue indefinitely the celebration of National Song Week.

Dr. Garfield cannot have needed much coal in his office this winter as he has been in hot water all the time.

It is safe to go in and listen to the congressional debates if you wear a gas mask.

One good strike fomentor is worth more to Kaiser Bill than a regiment of soldiers.

Misapplied Metaphor.
Life is a cocktail, rejoiced the optimist.

Yes; a cocktail with too much bitterness, growled the pessimist.—Philadelphia Record.

The Impressionist Sandwich.
What did you put in this sandwich—goldleaf?
The color deceived you. That's cheese.
The thinness deceived me; that's all.—Louisville Courier-Journal.

THE TWO BATTLES.

(Independent and Harper's Weekly.)

In his address to congress last week President Wilson dealt another hammer blow at the wedge between Austria and the military and annexationist party in Germany. The address was a reply to the recent statements of the German chancellor and the Austrian foreign minister. But the spirit of his comment on the words of Count von Hertling is altogether different from that of his references to the words of Count Czernin. Of the former he said, "Count von Hertling's reply is, I must say, very vague and very confusing. It is full of equivocal phrases and leads to is not clear where. . . . Is it possible that Count von Hertling is, in fact, living in his thought in a world dead and gone?"

Of the latter, on the contrary, the president spoke in no such critical terms. He said: "Count Czernin seems to see the fundamental elements of peace with clear eyes, and does not seek to obscure them." In comparing the words of the two statesmen, he said: "Count von Hertling's reply . . . is certainly in a very different tone from that of Count Czernin, and apparently of an opposite purpose."

This is a sound distinction and one which it is the part of skillful and wise statesmanship to emphasize. Just at this moment Germany has secured, more by good luck than by good management, the unquestioned advantage of the elimination of Russia from the ranks of her enemies. The result is an enormous increase of her fighting power on the western front. It will take time for that increase to be neutralized by the steadily swelling contribution of the United States. It can and will be not only neutralized but overborne. Germany will be defeated by force of arms, if no other road shall be opened to the peace which means the rendering impotent of the lawless power of German militaristic aggression. For the four great champions of human rights, England, France, Italy and the United States, are an indomitable unit in their determination to achieve that end. But there may be another parallel way by which that sacred purpose may be accomplished. If only Austria, the slave and the dupe of German Kultur, can be won away from that suicidal allegiance, that road may yet be traveled.

The president is clear sighted in his recognition of the fact that we are fighting two battles: one to crush the military power of Germany, the other to arouse the decent and right-thinking sections of the German and Austrian peoples to desert that malvolent power and commit themselves to the path of justice and righteousness. It is plain that he realizes that neither battle can be neglected in favor of the other. To win either one is to win both. It is the function of the American nation to pour out its energy and its resources, material, intellectual and spiritual, in the relentless prosecution of the two ends without distinction.

Well, how will the many thousands of the Ohio boys and the many thousands of the rest of us know who this man is if he doesn't let us know? Of course, in the ordinary course of society it would not be expected that a private note should be made public, but then no one has a right to permit private matters to obstruct the public welfare. We have had recently a judicial decision upon that point by a federal court of the United States. We have no idea who the suspected individual is, but he should be made known. The reference implies a state of mind that should be ruled out of political supremacy.

ARE THEY SLACKERS.

(Chattanooga Times.)

The exemption boards of this county and section are reporting that a large majority of the claims for reclassification are coming from well-to-do young men, social favorites, as it were, and men with influential friends or a political pull seeking to avoid military service. It might as well be understood now as later that this is as much a rich man's war, as much a society leader's war and as much a war for men with political influence as it is for the poor man, the salaried man, the workman or the man of average means. This is a war for democracy, and that means it is a war without any venerated distinctions, and one in which all classes and conditions of men and women must bear their part. That exemption board that refuses to consider anything except what is in the questionnaire and the attached affidavit will not only save itself much trouble, but be carrying out the purposes of its organization.

The questionnaires were prepared with a view to save these boards from the very thing they are complaining of, the importance of friends, relatives and employers of registrants for exemptions after classification are made. There are certain well defined provisions for exemptions, and we believe the boards have been through impartial and just in their decisions. The district board has made a record of which it may well be proud, not only for promptness and efficiency in disposing of the enormous burden of work imposed on it, but in refusing to be influenced in any way by any consideration save those appearing in the questionnaires and the accom-

POULTRY NOTES

(By Mrs. E. W. Hubbard.)

The chief requisites of a poultry house are that it be well ventilated, reasonably free from drafts, have good light and be dry. If it is so light that it is not well ventilated the heat from the chickens will cause dampness and the air will soon become foul. If it is not light enough the chickens will spend their time on the roosts instead of scratching in a deep litter for food and if it is not dry they will not be healthy. Thus openings must be arranged so that they can be closed in stormy and severely cold weather and open in mild weather. The solution for this is to cover the opening with poultry netting and protect them by means of hinged muslin or canvas-covered frames which can be raised or lowered according to the weather. If the canvas or muslin is flapped over the opening there is not enough ventila-

tion at any time and the house is too hot in warm weather. The best height for your poultry house is six feet in front and four and a half feet in the back. This gives head-room for the attendant entering at the front or side front; there is still enough room in the back for roosts and droppings; boards and enough room under the droppings boards for the chickens to scratch so that no floor space is wasted. Neither is the heat from the fowl wasted at night, especially if muslin or burlap curtains are hung in front of the roosts, thus giving less chance for combs to be frozen.

Twelve feet is a good depth for your poultry house, for it allows the light to penetrate to every corner and also allows the roosts to be far enough away from the openings so the floors are of dirt they must be raised to prevent dampness.

TWO REMARKABLE MONTHS.

(Cleveland Plain Dealer.)

The mildness of February has been as notable as the severity of January. The greater part of the present month has not been winter at all. With but one brief interruption, spring has been here since the sixth day of the month. What seemed a false and premature spring early in February has gradually become real spring. Leaf buds are swelling, peiza mushrooms are opening their red cups, butterflies are not rare, the bluebirds have returned from the south. These and other indications prove that nature considers these latter February days not merely springlike, but actual spring.

No one can doubt that March will display some measure of wintriness. It may be hoped these relapses will be neither spiteful nor prolonged. But even if they are no milder than usual, spring is already several weeks ahead of time, and the season can scarcely lose all that has been gained.

It is difficult to overestimate the value of the existing mildness. It means much to every American and it means more to the nation. After the bitter trials of January the year has gone far to make amends and to facilitate the human work that was so retarded.

Tribulations are likely to be more impressive than blessings, and the 1918 January may be remembered for its evil long after the excellent temper of its successor is forgotten. But February has been almost as remarkable as January, and at its departure merits wreaths of gratitude.

Pointed Observations

The various war-industries of the country are now badly engaged in composing a fitting reply to the latest German peace terms.—Chicago Herald.

Did You Know
That Henry Wadsworth Longfellow was born in Portland, Maine, the 27th of February, 1807? He was the son of the Honorable Stephen Longfellow, a man of note in law and politics and one of the early members of the United States House of Representatives. Longfellow entered and graduated in 1825, when he was made Professor of Modern Languages and Literature and he passed the next four years in Europe preparing himself for this chair which he assumed in 1830. At the age of twenty-six he published "Coplas de Manrique," which placed him in the front ranks of great living poets. "Outre-Mer" came out two years later. He took the chair of Modern Languages at Harvard in 1827 and held the professorship until 1854, when he resigned. In 1849 he received the degree of D. C. L. from the University of Oxford. Longfellow died March 24, 1882.

Mr. son, salvation do not seek Like hypocritical Sam Seven; He gives the church a dime a week And thinks he's paid his fare to heaven.—Luke McLuke.

PULL TOGETHER FOR BLESSINGS OF A HIGH ORDER

Nerv-Worth and Nerv-Worth Laxatives Tablets Do Wonderful Teamwork.

These two famous family medicines unite their forces with happy results for those whose nervous ill are mixed up with bowel and liver troubles. Nerv-Worth, the liquid, generally masters derangements of the liver and bowels, but in some cases these are too deep-rooted to surrender, and then the Tablets, taken in conjunction with the liquid, do wonderful work. They are especially valuable in cleansing the bowels for those whose habits of constipation do not readily yield to the laxative properties of Nerv-Worth, the liquid. A bottle of Nerv-Worth and a 25c box of the Tablets form a combination without equal in overcoming ill of the nerves, stomach, bowels and liver.

Your dollar back at the T. J. Evans Drug store, Newark, if Nerv-Worth does not do for you what it did for Mrs. Wilson.

22 Million Families in the United States

IF EACH FAMILY saved one cup of wheat flour it would amount to 5,500,000 pounds, or more than 28,000 barrels. If this saving was made three times a week, it would amount to 858,000,000 pounds, or 4,377,000 barrels in a year.

You can do your share in effecting this saving and really help to win the war by omitting white bread from one meal today and baking in its place muffins or corn bread made according to this recipe:

Corn Meal Muffins

1 1/2 cups corn meal
1 1/2 cups flour
1/2 teaspoon salt
4 teaspoons Royal Baking Powder
2 tablespoons sugar
No eggs
1 cup milk
2 tablespoons shortening

Sift dry ingredients together into bowl; add milk and melted shortening and beat well. Bake in greased muffin tins in hot oven about 20 minutes. Same batter may be baked as corn bread in greased shallow pan.

Our new Red, White and Blue booklet, "Best War Time Recipes," containing many other recipes for making delicious and wholesome wheat saving foods mailed free—address

FOOD WILL WIN THE WAR

WOMAN ARRESTED ON BIGAMY CHARGE HELD FOR COLUMBUS

Matrimonial entanglements resulted in the arrest of Mrs. James Barber, also known as Martha Barber and Mary Shiffled, on a charge of bigamy this morning at her home in 99 South Third street by Officer Gorman.

According to information received by the local police department from Columbus where the woman is wanted on the bigamy charge, she was married in that city to James Barber, and later without obtaining a divorce she married William Shiffled, also of Columbus but later returned to Barber.

When arrested this morning she stated she had married Barber in Columbus, but that he left her and after being gone three years she consulted an attorney and he told her she could remarry, because of her husband's absence of three years without obtaining a divorce. So she married Shiffled. Just why she left him to return to Barber is not known. She has lived at 65 South Third street, 137 East Main Street and is now living at 99 South Third street.

Mrs. Barber is about 27 years of age. She will be held until the representative of the Columbus police department comes for her.

SOCIAL EVENTS

SOCIETY EDITOR, AUTO 'PHONE 2312.

The Library association meets Thursday afternoon at 2 o'clock at Taylor Hall for the annual election of officers and a full attendance of members is desired.

Hetuck Chapter, Daughters of the American Revolution are planning to send a gift of jelly to Camp Sherman, part of it to be used in the hospitals for convalescent patients, and any person wishing to donate is asked to leave the donation at the home of Mrs. S. C. Priest in North Fifth street.

The Luther League of the West Main street Lutheran church was entertained at the home of Dorothy Kappes in Maholm street Tuesday evening.

Miss Lucy Connel entertained the members of the Unity Reading Circle on Tuesday afternoon at the home of Miss Green in Hudson avenue and the following program was given:

Quotations—Current Events—Mrs. Dennis Bell.
"Folk Songs," illustrated—Mrs. H. F. Moninger.
"Music and Morals"—Mrs. Frank Slabaugh.
"Richard Coner de Leon"—Mrs. A. S. Mitchell.
Critique—Mrs. James McGough.
A number of guests were entertained by Miss Connel with the members of the club.

Talk is cheap, until you have to take it back.

Our Boys and Girls

Harsh punishment has no place in the bringing up of a child. A baby knows nothing of right or wrong but follows his natural inclinations. If these lead him in the wrong direction, the mother must be ever vigilant to guide him in another and better way, and to divert his eager and his energy into wholesome and normal directions. This is the golden rule in the training of babies and one which, also, applies to all ages.

Many parents conceive that their whole duty is to thwart and forbid, enforcing their prohibitions with penalties of varying degrees of severity, forgetting that they are dealing with a sensitive being endowed with all the desires, inclinations and tendencies that they themselves have, and that if these natural feelings are constantly suppressed and thwarted, they are sure to seek and find some outlet for themselves.

ABOUT PEOPLE

Miss Marie Hirst has returned to Cleveland, after a few days' visit to her parents, Mr. and Mrs. P. B. Hirst. She was accompanied home by Miss Gertrude Schilpp.

Mrs. Charles C. Starratt went to Chillicothe this afternoon to begin housekeeping at 673 East Main street, Lieut. Starratt having been assigned to station duty in Chillicothe.

Miss Marvina Huffman and Miss Clara McPeak of Utica, are guests of Mrs. John Rizer, in the North End. Miss Grace Cramer of Danville, Ill., is a guest of Sheriff and Mrs. Chas. H. Swank.

Bradley's ambulance removed Mrs. White from her home 130 1-2 East Main street to the Sanitarium, Tuesday.

ACTIVITIES OF WOMEN

The average height of the women of France is five feet and one inch.

The medical women of this country have organized to help the Red Cross.

The naturalization of about 43,000 women of voting age who will be one of the first results of the suffrage victory in New York.

Although she is past ninety-five years of age, Mrs. Mary Getty of Indiana, Pa., is still acting as knitting instructor for the Indiana chapter of the Red Cross.

Miss Virginia Hyman, daughter of the mayor-elect of New York, has been named president of the Young Women's Democratic league in that city.

WOMAN CHARGED WITH ATTEMPT TO BLACKMAIL MAYOR

(ASSOCIATED PRESS TELEGRAM) Atlanta, Ga., Feb. 27.—Mrs. H. H. Hirsch and J. W. Cook came up for trial today on the charge of attempting to blackmail Mayor Asa Chandler, from whom it is charged they sought to extort half a million dollars by threats.

A large number of witnesses have been summoned but counsel expressed belief that the trials would be concluded within two days. The state has subpoenaed many witnesses including H. H. Hirsch, husband of the accused woman while the defense has subpoenaed women employees of the city hall.

Mayor Candler, in testimony before the grand jury denied he had ever received Mrs. Hirsch in his office except on what he supposed to be a visit connected with Red Cross work.

Mrs. Hirsch and Cook have maintained a strict silence concerning the case.

After a request for a change of venue was denied Mayor Candler was called to the stand.

In response to questions Candler stated he became acquainted with Mrs. Hirsch last summer when she came to his office accompanied by another woman in connection with selling an automobile by tickets for a Red Cross benefit. She was in doubt as to whether the city ordinances would permit it. Several days later, the mayor testified, Mrs. Hirsch came to see him—he believed it was in his office in the Candler building—to request his assistance in handling some tickets on the automobile at a dinner to be given in honor of Brigadier General Swift.

Continuing his account of his acquaintance with Mrs. Hirsch the mayor said:

"I saw her again on February 4 on Forsyth street on my way from the city hall to the Candler building. She asked me for a conference that afternoon in my office in the Candler building. I told her it would be impossible but I would see her on Wednesday afternoon, Feb. 6, at 4 o'clock in my office in the Candler building. She did not state the matter she wished to discuss with me, although she made mention of the humane society.

On Wednesday afternoon she came to my office in the Candler building. She removed her coat and sat down beside the table. The door from my private office into the hall way was locked on the outside, as it always is.

"She had hardly seated herself before she sprang up and exclaimed that she saw a man out side of the window. I remarked that it was probably a window washer, and turned around to look but saw nobody. Mrs. Hirsch claimed it was not a window washer but a well dressed white man standing on the ledge. I again turned my head to look out of the window. When I turned back to Mrs. Hirsch she had removed her hat and had opened the door leading into the hall way. A man was standing in the door and immediately entered the office. I had never seen him or heard of him before. He said:

"Our honorable mayor, this is nice! I at once suspected that a trap had been laid for me."

Attorney John R. Cooper, of counsel for the defense, objected to what Mayor Candler suspected. The objection was sustained.

The Arab's Loyalty.
The Arabs are a loyal people. "One day," writes a medical missionary, "there came to the Kuwait hospital a sick man brought by a wealthy brother. Five years or more before there had been a raid, and Hamad was wounded. He had been disabled ever since. They came from a great distance to the hospital. It was a tedious case. A number of operations were necessary, and it was perhaps five months before he could go home. During that whole period the sick man was cared for by his well brother with a loyalty that was splendid. He kept the sick man clean, spent his money for him, stayed with him to keep him cheerful, did everything that could be done to help toward a cure, and finally to their great delight, it was possible for them to go home together, two well men. I do not know that I have ever seen a finer example of loyalty in any life."

NEWARK WOMAN HELD AT VLADIVOSTOK BY PETROGRAD SIEGE

The many friends of Miss Katherine Childs, formerly secretary for the Newark Y. W. C. A. will be interested to learn that she is now in Siberia. Mrs. Fred C. Evans, received a cablegram announcing her arrival at Tokio, Japan, and has now received a letter from Vladivostok, Siberia.

Miss Childs with another young woman from Michigan has been sent by the National Board of the Y. W. C. A. on war work to Petrograd. When they arrived in Tokio, a cablegram was awaiting them from Petrograd asking them to bring along with them 25 pounds, Russian weight, of tea and sugar and 2,000 cans of condensed milk with a quantity of rice. They made these purchases and proceeded to Russia, but could get no further than Vladivostok, as Petrograd is in a state of siege.

Miss Childs and her companion have taken a small apartment in Vladivostok, and are giving three lessons a week in English to a number of students and take a lesson in Russian. Their supply of sugar, tea, and rice, they have stored. Their apartment, Miss Childs states, has become a mecca for fugitive Americans and other allied citizens, who have been forced to leave Petrograd.

In speaking of the situation she says it seems that the pendulum has swung as far to the extreme as it can and that the reaction must come soon. It seems a little far to place in the power of the Bolsheviks to much longer continue its control.

In Japan Miss Childs met Miss Esther Nixon, a Granville girl who is doing Y. W. C. A. work in Tokio.

THE COURTS

Real Estate Transfers.

Harmon Baker to Lorey D. Baker, 100 acres in Monroe township; \$2500.

James Ramsower to James Hoppes, parcels in Granville and St. Albans townships; \$1, etc.

A. A. Stasel, trustee, to Ellen Parsons, lot 6331 in Rose Hill addition; \$1000.

Jesse F. Yaus to Patrick J. Giblin, inlot 203 in Tallmade Place addition; \$2000.

Perry Richards to Frank McCuen, parcel in Pine street; \$1, etc.

Rose M. Christian, administratrix, to John D. Kinney, one-half inlot 687 in Smythe & Wilson addition; \$1938.33.

Suit for Alimony.

A suit for alimony was filed in probate court late Tuesday afternoon by Priscilla Patterson against Alexander Patterson. They were married December 15, 1893, and are the parents of six children. It is alleged in the petition that the defendant had been guilty of gross neglect for the past 15 years, and has squandered his money in drinking and idleness; that on February 9 the defendant took the cook stove from their home and sold it, and on February 11 he deserted her. The plaintiff prays that the defendant be restrained from coming to her home and that she be allowed reasonable alimony.

Answer Filed.

In the case of Lester Parr vs. Jerome B. Ferguson et al., the defendants filed an answer to the plaintiff's petition today in common pleas court, denying every allegation in the petition, and further prays that the damages sustained by the plaintiff was due to his own negligence and not that of the defendants' employee. The defendants pray that judgment be rendered against the plaintiff for his costs herein.

The case involves a judgment for damages caused by the defendants' automobile backing into the automobile of the plaintiff at the intersection of Granville and Sixteenth streets.

Suit for Money.

A petition for judgment was filed today in common pleas court by L. J. Hession against Ode Fairall. The cause of the action is based on a written obligation of the defendant to pay an old account due the plaintiff. The amount of the account was \$85.20, subject to a credit of \$20. The plaintiff claims there was due him on the obligation on February 26, 1918, \$106.10, for which amount he seeks judgment with interest from that date.

Granted Decree.

In the case of Marie Bernard vs. James Bernard, the court this afternoon entered a decree of divorce to the plaintiff. The alimony feature was adjested between the parties.

Common Pleas.

In the case of J. A. Irick vs. James H. Kirkpatrick, et al., a suit brought among other things, to marshal liens, an order was made by the court that James H. Kirkpatrick and wife execute a deed to the real estate described and that the title be quieted. The case was argued and submitted to the court upon motion.

Delbert White vs. J. D. Keeley, leave given to amend the petition in five days.

B. G. Smythe, successor to Receiver James F. Lingafelter, vs. Title Guaranty and Trust Co., a motion filed to the petition was submitted upon briefs.

In the case of Connell vs. Rolfe, leave was given to file a petition instantly. An appeal from the docket of the Justice of the Peace.

The court heard the remainder of the testimony of the witness in the case of Marie Bernard vs. James Bernard, a suit for divorce and alimony.

On Monday next the court will call the motion list.

Court of Appeals.

The March term of the court of appeals will be held in the courthouse, beginning Tuesday, March 5. Read the Want Ads tonight.

with Judges R. S. Shields, Louis K. Powell and Lewis B. Houck on the bench.

OBITUARY

Austin G. Woodward.
Austin G. Woodward died at the City Hospital at 3:30 a. m. Wednesday, Feb. 27, of a complication of diseases and old age, he being 80 years, 10 months and 11 days. He was born in Morgan county, April 16, 1837, where he spent his early life.

Coming to Muskingum county he was united in marriage to Miss Margaret Lynn in 1862, to whom were born ten children, the wife and five children preceding him in death. Albert L. Jos. D. Ezra L. Woodward, Mrs. L. F. Ryan and Mrs. J. B. Lentz of Newark, also eight grand children survive, also two brothers, Cary and Miles, of Morgan county. Mr. Woodward will be remembered by many as a school teacher in Morgan and Muskingum counties for a great many years. The funeral will be held from his daughter's residence, 17 Curtis avenue, Friday at 2 p. m. Please omit flowers. Zanesville papers please copy.

Funeral of T. W. Duffell.
The funeral of T. W. Duffell of Luray will be held at the Disciple church at Hebron on Friday afternoon at 1 o'clock under the auspices of Williams Lodge, No. 363 I. O. O. F. Rev. H. H. Carter of Kirtersville will officiate.

Mrs. John Lyons.
Word has been received here of the death of Mrs. John Lyons in Kansas. She was the daughter of Mr. and Mrs. Jacob Hanby of near Reform. The remains will arrive in Newark tonight at 8:10 o'clock and will be taken to the home of her parents, six miles north of Hanover.

Funeral of Mrs. Hand.
The funeral of Mrs. S. S. Hand was held this afternoon at 2 o'clock from the home, 80 Dewey avenue. Interment was made in Cedar Hill cemetery.

Reese W. Burris.
Reese W. Burris, 48, died at his home, 162 Twelfth street, Tuesday evening at 7 o'clock. The deceased was the son of Mr. and Mrs. J. P. Burris and was born in Madison county. He is survived by his wife. The funeral services will be conducted Friday morning at 10 o'clock at the First Methodist church, Rev. L. C. Sparks officiating. Interment will be made in Cedar Hill cemetery.

Funeral of Mrs. Loar.
The funeral services of Mrs. Lucy Loar will be conducted Thursday afternoon at 1 o'clock at the Hanover Methodist church. Burial will take place in the Hanover cemetery.

Card of Thanks.
We desire to thank our friends and neighbors for their kindness during the sickness and death of our beloved wife and mother; also, for the beautiful floral offerings and the consoling words of Rev. Mr. Carman. J. H. Thompson and Children. 2-27-18

Card of Thanks.
We wish to express our sincere appreciation of kindness and sympathy shown us by neighbors and friends during the illness and at the death of our dear little Emerson, to Rev. T. B. White; also, the singers for their beautiful songs, and to those who contributed beautiful floral offerings. Mr. and Mrs. Jos. R. Hoskinson and Children, Hebron, O. 2-27-18

Every Day Etiquette

"Is it necessary to dress a child, five years old, in mourning upon the death of a brother?" asked a young bereaved mother.

"No; it is not considered correct at present to dress children in mourning," said her friend.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."

Mrs. LIZZIE COURTNEY, 108 8th Ave., West Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

Here's a Real War, Saving

On washday, use Fels-Naptha Soap in the Fels-Naptha way.

Because it makes boiling water unnecessary, it saves the extra coal or gas you need for boiling water.

It is economical to buy Fels-Naptha when in fuel alone you save 15 to 25c on washday.

At your own grocer's

Milady's Boudoir

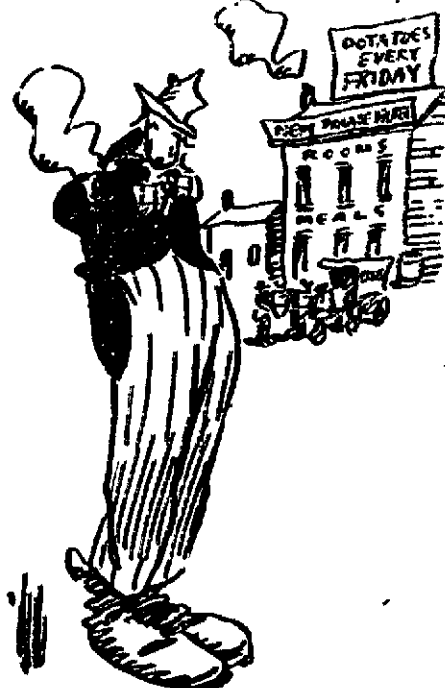

Ankle Exercise.
There used to be a time when our dresses, or at least the dresses of our mothers, reached to the floor, or so nearly so that a brush braid of coarse binding on the bottom hem was necessary to preserve the fabric. In those days if the tiniest bit of ankle showed it was the cue for a woman to blush. Now we have become quite accustomed to showing our ankles and woman's right to them has been fully recognized, consequently pretty ankles are greatly to be desired and add much to our beauty.

To improve the shapeliness of ankles, exercise and massage will do wonders. It will be found that most ankles that are unattractive, or not quite as shapely as the possessor might wish, either lack sufficient flesh or are too fleshy. If your ankles are a little too stout you may reduce them within a month by means of a little exercise, morning and night, for 10 minutes.

Remove the shoes and stockings and cross the knee so the support is removed from one ankle. Thrust out the foot and twist it around from the ankle in a twisting motion, then bend it up and down, making sure that all this is done with the anklebone. When one foot becomes tired shift positions and exercise the other ankle.

For the thin maid who wishes to be plump, there is nothing so good as rest. Take 10 minutes every little while and in a loose lounging robe, sink into a chair and let out every ounce of energy. Relax the fingers, wrist, arms, feet, ankles and legs. Drop the head heavily to the right, left and down and try to be as limp as the proverbial dishrag.

Abe Martin

CHEST COLDS may mean weak lungs and need more thorough treatment than mere syrups, physics or stimulants.

SCOTT'S EMULSION

corrects chest colds by giving strength to the blood and warmth to the body, while it is famous with physicians for relieving hard coughs and soothing the lungs, throat and bronchial tubes.

Scott & Bowne, Bloomfield, N. J. 17-27

Be Careful in Using Soap on Your Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mul-sified coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Bee Expert Coming.
It is requested that all parties in Licking county interested in bees and bee keeping, meet at the office of the Farm Bureau Saturday afternoon, March 2nd, at one o'clock.

A government expert on bees will be present and will be able to give some valuable information and assistance. Every one interested is welcome and a good attendance is desired.

Returns from Chicago.
Henry Lucas, who spends some time each year in Chicago has returned to Newark after his annual trip.

Seriously Ill.
J. H. Smith, living in North avenue, is said to be seriously ill.

Just One Today.
Just one prisoner, charged with intoxication appeared before the mayor in police court, Wednesday morning.

Hand Badly Injured.
Robert, the little son of Mr. and Mrs. William Young, North Fourth street, had his hand badly injured this morning when a heavy window fell on it. A doctor was called, but has not been able to determine yet whether any bones were broken or not. The baby met with another serious accident when his eye was injured a few weeks ago.

Will Leave Newark.
C. F. Schwerin, deputy income tax collector, who has been assisting in the filling out of the income tax blanks will leave Newark tomorrow night. The time when all blanks must be returned to the state has been extended to April 1.

Liquor Licenses.
Ray Martin and Ernest Cornell members of the Licking county liquor licensing board, announce that under the liquor license law the new license year begins on the second Monday in May, 1918. Those who desire to make applications for saloon licenses must do so between the first and the fifteenth of March, 1918. Both members of the county board will be in the board's office in the Trust building to receive applications during the first half of March.

TO THE SKILLED AND UNSKILLED MECHANIC

Brothers—Your government wants your ability and efficiency, to help build her ships and manufacture munition; it will not cost you money or anything else excepting the time necessary to enroll yourself as an American, and a patriot, whom the government can call upon to work for good pay here at home.

It is purely voluntary on your part, and good pay on the part of the government. We should have 5000 volunteers in Newark—we have only 101 at present. Will we stand idly by and see our government forced to the necessity of conscription of labor in order to get ships in which to carry food to those sons and brothers of ours already in France, fighting for the principles for which our forefathers fought and died?

I believe not. I feel sure the men of Newark will splendidly respond to this call. Come, brothers; let us show the country there is no question as to the loyalty of the workmen of Newark, to either work or fight.

Come, held the cause by enrolling at the board of elections office. You can do this any day in the week from 7 a. m. to 5 p. m., and on Tuesdays, Thursdays and Saturdays from 7 a. m. to 9 p. m. Very truly,

Geo. H. Hamilton,
Enrolling Agent.

Few Perfect Pipes.

Pipe manufacturing is said to be the most reckless of speculation. The manufacturer buys his blocks of briar root "sight 'n' unseen," as the children say. He runs the entire contents of the bag through the factory, giving each piece exactly the same treatment as all the rest, expending an equal amount of skill and care on each piece, then looks to see what he drew. Speaking in averages, one expert finds that out of each gross of finished pipes there are two dozen that can be sold as "firsts," six dozen that will pass as "seconds," two dozen that must go for "thirds" that will retail at 9 cents to 19 cents, while the remaining two dozen must go down to the furnace to be used as fuel. If it is his lucky day the manufacturer may find a single perfect pipe in the gross.

Many a fellow who failed to climb the ladder of fame at home is trying another climate in France.

HERMANN

THE CLOTHIER

"The Store Where Quality and Service Count"

IDEAL SITE FOR A DAIRY.

Whenever possible the cow stable should be on high ground with good natural drainage. Poultry houses, hog sheds, manure piles or surroundings which pollute the stable air and furnish breeding places for flies should not be near the cow stable. The silo may be connected with the stable by a feed room, but it should be shut off by a tight door. This is convenient and also prevents silage odors in the stable except at feeding time. After the silage has been fed, the stable can be thoroughly aired before the next milking period.

An ideal site for a barnyard is a south slope which drains away from the stable. If the barnyard is inclined to be muddy, it should be improved by drainage and by the use of cinders or gravel. A clean yard is a great help in keeping the cows from becoming dirty with mud and manure.

RAILROAD MAN WAS ALMOST DOWN AND OUT

Tried About Everything But Up To Time He Took Acid Iron Mineral Health Was Extremely Poor

TELLS WHAT IT DID

"My friends know the condition I have been in for a long time. They know how I've suffered with rheumatism, stomach trouble, nervousness and a general breakdown of my health, and they know how hard I've tried to get relief and my old strength back with doctors and medicines these many years."

"I used to ache all over and with terrific pains; I couldn't rest for days and nights at a time. At such times my whole system seemed to go wrong and my stomach would act up and nothing I ate would agree with me."

"Then one day I heard a man telling about this wonderful Acid Iron Mineral discovered down on a farm in Mississippi which was just beginning to be successfully filtered, concentrated and bottled under the famous 'A-I-M' trade mark and I bought a bottle and today I'm praising it sky high because it has helped me more than anything I have ever used. I haven't been bothered with the old ailments and nervousness and in fact I am practically a well man now."

Acid Iron Mineral was declared Dr. Dawson, a well known car repairer with the Norfolk & Western Railroad, Roanoke, Va.

How many men shuffle down the street, pale, peaked, and half-nourished looking who simply need the bolstering and up-building help of good old natural iron, and here it is, cheap as dirt, powerful yet harmless and what a great big change it does make in a man's feelings and looks.

A SAFE, EASY WAY TO CURE ULCERS

No matter how bad a sore or ulcer afflicts you, it is believed that HOKARA, the pure skin healer, will cure it, but if it doesn't cure, the purchase price will be refunded.

Evans' Cut Rate Drug Store, the local agents for HOKARA, who have sold hundreds of packages, say they have yet to find any form of wound or disease affecting the skin that HOKARA does not heal, and its relief comes so quickly that those who try it are simply delighted with it.

Pimples, eczema, blackheads, acne, barber's itch, and all skin troubles are quickly relieved by applying this simple skin healer and tissue builder. It contains no grease or acids, and is clean to use.

Evans' Cut Rate Drug Store is selling a large package for 35c.—Advertisement.

Don't hoot at our democracy. 'Tis better to be homeless. A pedigree? The family tree is very often fruitless.

California's True Oasis.

Only at one place in the United States is there real tropical vegetation, says Popular Science Monthly. Florida and California have what is called "subtropical" vegetation. In the midst of a desert in the extreme southern part of California is a true oasis. The oasis, Palm Springs, lies 250 feet below the sea level. So hot is it there that there is a riot of vegetation all the year around. Enormous fig trees and mammoth grape fruit and oranges are always to be had. The lemons that grow there weigh two and a half pounds apiece. The responsibility for all this may be laid to a beautiful little stream which is fed by the Colorado river and which flows through the oasis only to disappear into the ground at its end.

We Talked About Rugs Yesterday

It's the most important buying you will have to do this spring. To save money and secure a good selection it is absolutely necessary to do it early. The rug mills have many of them been put on government work making fabrics for tents and the soldiers. This has made the production very small. The carpet and rug mills are not producing half their usual stock and it will be impossible to duplicate rugs later.

Come In Early This Week And See Our New Rugs

You can select your rug now and we will lay it aside and hold it for you until you want to take it home. You will have the complete line to select from and can also select from all the odd sizes and still save yourself quite a bit of money.

Have You Seen The New Rag Rugs?

They are beautiful—made in a big variety of shades, all with pretty cretonne border effects in light and dark grounds, sizes four and a half feet long, in two different qualities. \$1.25 and \$1.08

The New Velvet Rugs At \$1.75

Are very cheap on this market. This is the only shipment we will have at this low price. They come nicely assorted in florals and pretty Oriental patterns with heavy bound edges. Only \$1.75

COUNTRY SCHOOLS SETTING A PACE IN WAR SAVINGS

Price of \$5 Stamps Advances Moh. 1
So Exchange Thrift Stamps Tomorrow—The Thrift Campaign.

The Newark public schools have bought \$13,625.25 worth of War Savings stamps to date, being almost 46 per cent. of the whole year's quota of \$30,000. Now comes a report from County School Superintendent N. D. Wilson showing that the village and country schools have already purchased about one-fourth of their \$40,000 quota, a splendid record considering the fact that owing to weather conditions the work of organizing the Thrift campaign in the country districts has just recently started.

Supervision District No. 3. (Superintendent Smith of Utica) has purchased more than half her apportionment. Utica leads all the villages with \$2,640. Superintendent Smith upon being questioned how Utica does it, said that a bulletin board was placed in the window of one of the prominent stores and everybody is watching the total grow.

Hebron and Supervision District No. 1. have each passed the \$1,000 mark.

Hebron and Pataskala have each purchased more than half their apportionments.

Centerville School in Granville township is leading all the one-room schools in the county with a total of \$268, with a school in Liberty township following a close second with \$227.75. Supt. L. B. Brown will give the name of this school in his next report.

Barlington township and Homer are in the lead among the townships with purchases amounting to \$618.20.

Pushing to the front are Granville township, \$432.75; St. Albans, \$380; Lima \$200, and Newark township, \$320.50. County Superintendent Wilson and all of the district superintendents are taking a great interest in the campaign and are quick to date show that the pupils are responding quickly to the appeal from Uncle Sam. Here are the figures submitted by Supt. Wilson:

Supervision District No. 1.
Bowling Green Tp. (Brownsville) \$ 318.75
Franklin Tp. 7.00
Granville Tp. (S. half) 283.00
Hepewell Tp. (Gratiot) 45.75
Licking Tp. 26.50
(Jacksontown) 330.50
Newark Tp. 15.75
Union Tp. (North) 15.75

Supervision District No. 2.
Eden Tp. \$ 12.00
Fallsburg Tp. 4.50
Hanover Tp. (Toboso) 18.75
Madison Tp. 89.50
(Hazelwood \$46.75)
Mary Ann Tp. 124.75
Perry Tp. 124.75

Supervision District No. 3.
Utica Village \$2,640.00
Burlington Tp. (Homer) 618.20
Granville Tp. (N. half) 149.75
McKean Tp. 5.50
Newton Tp. 101.20
St. Louisville) 42.75
Washington Tp. 42.75

Supervision District No. 4.
Benningson Tp. \$ 300.00
(Appleton) \$ 125.00
Hartford Tp. 232.75
Jersey Tp. (Jersey) 67.25
Liberty Tp. 300.00
Monroe Tp. 300.00

Etna Tp. School District (Etna) \$ 125.00
Harrison Tp. Sch. Dist. (Kirkersville-Outville) 300.00
Lima Tp. Sch. Dist. (Summit Station) 300.00
St. Albans Tp. Sch. Dist. (Alexandria) 380.00
Croton Village 297.00
Granville Village 297.50
Hanover Village 1,100.00
Hebron Village 250.00
Johnstown Village 358.25
Pataskala Village 358.25

Towns and townships omitted from this report have not as yet submitted their figures.

Exchange your Thrift Stamps for War Savings Stamps tomorrow, the last day of the month as the price advances March 1st. Sixteen Thrift Stamps plus 13 cents will buy a \$5 stamp tomorrow but after that 14 cents will be required. The price of War Savings Stamps bought outright advances from \$1.13 to \$1.14 on March 1.

Lick a stamp a day and keep the Kaiser away. Six hundred eighty-seven Licking county people, corporations or firms are selling War Savings Stamps.

The schools of Newark are leading the whole state of Ohio in their purchase of War Savings Stamps. Teachers and pupils have a right to be proud of the record they are making and the country schools of the county are making a great record too.

Hurry! Hurry! Tomorrow is the last day in which to buy War Savings Stamps at \$1.13. On March 1st the price is advanced to \$1.14.

Invest \$82.60 in 20 \$5 War Savings Stamps tomorrow. They will be worth \$82.80 the next day; not only "worth" \$82.80 but you can actually get \$82.80 if you really need the money and will give ten days notice. Uncle Sam guarantees payment and that guarantee is about as good as one can ask.

Victor Plaine who while learning telegraphy is carrying messages for the Postal Telegraph Company, bought twenty War Savings Stamps yesterday, \$100 worth for \$82.60. He is sixteen years old and used money that he had earned. The

EAST SIDE OF THE PUBLIC SQUARE

PERSONAL EFFECTS OF DEAD SOLDIER SENT TO FATHER

Mr. Thomas Bonham living south of the city, has received from France the personal belongings of his son, Jessie Bonham, who died in a hospital there while with the 166th Infantry. Accompanying the property of the deceased soldier were two letters, one from the boy's commander, First Lieut. Wayland Jones, commanding Company B, and the other was from the War Department of the Graves Registration Service.

The officer in charge of his company sent back his kit with toilet articles, his wrist watch, the identification medal presented by the Advocate, two testaments, pictures, cards and letters and some French money.

The following letter was received from Lieut. Jones:
Company B, 166th A. E. F., France, January 8.
From Commanding Officer, Co. B, 166th, to Mr. Thomas Bonham, R. D. No. 5. Subject—Death of Jesse F. Bonham.

1st—Jessie F. Bonham of this company died January 5, 1918, at Base Hospital No. 16 A. E. F., France, of measles and pneumonia. He entered the hospital December 11, 1917 with measles and pneumonia later set in causing death. Jessie F. Bonham was an excellent soldier and was universally liked by both his officers and fellow soldiers. His death is a source of general sorrow to all of us.

The officers and men of Company B, 166th Infantry extend their

heartfelt sympathy. Wayland Jones, First Lieutenant, 166th Infantry, Commanding Company B.

And with regard to the marking of the grave of Private Bonham, the war department sent the following communication:

War Department Graves Registration Service, A. E. F. Forces from the Chief of Burial Department A. E. F., Subject—Location of Grave.

1st—It is no easy task for me to write you as to the burial place of your son, Jessie F. Bonham, and I would be glad if I could send you a more comforting message. Your son was buried January 7, 1918, in the French Military cemetery, Bazilles France, in Grave No. 43 D. The grave has been temporarily marked and a permanent head board will shortly be erected.

The work of guarding the resting place of our soldier dead is a very sacred one and we feel that it is indeed a mission of mercy in behalf of sorrowing friends at home.

You will please be assured that this sad letter is sent out to you with very full measure of sympathy in the great grief that has befallen you. By direction, William Hoy, Maj. Q. M. C. N. A.

GERMAN SHIP LAUNCHED.
(ASSOCIATED PRESS TELEGRAM)
Amsterdam, Tuesday, Feb. 26.—The largest German cargo steamer afloat, the Rheinland, has been launched at the Vulkan ship yard at Vegesack, on the Weser. The Rheinland registers 16,000 tons.

HOLD CANNED GOODS.
(ASSOCIATED PRESS TELEGRAM)
Washington, Feb. 27.—All canners were advised today by the food administration to hold for war purposes, until further advised all canned corn, peas, tomatoes, string beans and salmon now on hand.

WILL INAUGURATE BEAUTY CONTEST IN HIGH SCHOOL

A beauty contest is to be conducted by the "Reveille," the paper published every two weeks by the students of the local high school. This contest is to be held Wednesday and Thursday of this week and is to decide the best looking boy and girl of each class and the best looking girl and boy in the school.

These contests are very popular at the Ohio State University and are conducted there every year. It is not the intention of the staff of the paper to make this contest a joke but to decide by popular vote the question that has been before the school for a number of years.

The Cheapest Way.

Willis—Our Sunday dinner costs us \$1 for five of us. That's economy, isn't it?

Gillis—I've got you beaten. Ours cost 35 cents for seven of us.

Willis—How do you manage it?

Gillis—We take the trolley out to my mother-in-law's.—Judge.

Ready for Rain.

I trust, Miss Tappit, said the kindly employer to his stenographer, that you have something in reserve for a rainy day.

Yes, sir; answered the young woman. I am going to marry a man named Mackintosh.—Christian Register.

You never can tell. Some fellows make the best time when they are headed the wrong way.

Used by tens of thousands for years in place of coffee.

"There's a Reason"

SOLDIERS' LETTERS

Editor of The Advocate:—I received the beautiful service medal yesterday and I assure you that I most sincerely appreciate this remembrance of me by the citizens of Licking county. I shall always treasure dear this gift from the people back home. It makes one feel that he at least has not been forgotten.

I am located at Camp Grant with about 4,000 other aviation Signal Corps men. There are four other Newark boys in this Brigade. This is a fine camp and we find life very pleasant. We will likely leave soon for an aviation camp. Respectfully yours, Clayton C. Brown, 161 Depot Brigade, A. E. F., Co. B, 340th Infantry, Camp Grant, Ill.

Editor of The Advocate:—Lieutenant Skinner acknowledges the receipt of the engraved bronze service medal presented by the people of Licking county and accepts the medal with heartfelt thanks. At least two other Licking county men are on duty in Camp Custer. Reference is made to Lieut. Earl F. Baum, (Etna, O.) Company 340th Infantry, and to Lieut. Guy Miller, (Pataskala, O.) Depot Brigade, Lieut. Chas. E. Skinner, Co. B, 340th Infantry, Camp Custer, Mich.

STOLE KNITTED GOODS.
(ASSOCIATED PRESS TELEGRAM)
Cleveland, Feb. 27.—Police today were searching for robbers who entered the Rose Knit Goods company last night and carried away nearly \$1,000 worth of knitted goods. An auto is believed to have been used to carry the goods away.
